

REMARKS

The Examiner has indicated that claims 1, 2, 4, 6-9, 11, 12 and 14-34 are allowable. The Examiner, however, has objected to claims 9, 11, 12, 14-19, 27-29, 31 and 32 as allegedly containing features not discussed in the specification. Specifically, the Examiner maintains that the first and second holding portions and the coil filaments are not discussed in the specification.

Applicant respectfully traverses the Examiner's assertion. Nevertheless, to expedite prosecution, Applicant hereby amends claims 9, 11, 12 and 17 for clarification. Also, Applicant cancels claims 15, 16, 18 and 27-29 without prejudice or disclaimer. Applicant submits that the features now clarified in claims 9 and 12 are shown in at least Figure 27. In this regard, Applicant refers the Examiner to the annotated version of Figure 27 that was provided with the November 12, 2007 Response. Regarding specific terminology recited in the claims, Applicant refers the Examiner to basic descriptions provided on, for example, page 2, line 12 to page 3, line 7 and page 19, lines 13-25 of the present Application. All recited features are discussed throughout the specification using the exact terminology recited in the claims. Since the Examiner appears to be uncertain specifically as to the claimed holding portion filaments, Applicant refers the Examiner to element 105 shown, for example, Figure 1. Applicant respectfully requests the Examiner to contact the undersigned if further uncertainty remains.

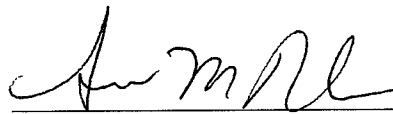

Furthermore, Applicant has added claim 35. Since claim 35 is analogous to the allowable subject matter of claim 17, Applicant submits that no further search and/or consideration is necessary and therefore, Applicant respectfully requests entry of claim 35 (see MPEP §714.20(C)).

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the

Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
